EVERGREEN Training Solutions is the best training provider to turn on to for a quality, private training experience, with a guaranteed on time training completion. Training is provided as a 3 to 6 month block of training, with X-RAY CBT and CT CBT. Our trainers are internationally known and certified trainers and modellers, who deliver an industry standard program. Our support staff are highly trained in Health and Safety and stress management. The simulator can be used in 3 formats – to teach a full course, to teach separate elements of a course, or as a stress management tool. To successfully complete an X-Ray CBT /

CT CBT course, each candidate must pass the required CEU's – OS2 – CSCS – WIOA – EH333 – WAIRA – WAIRA B2 We can tailor to your needs and can provide training in the office, at home, or at your office. We provide health and safety and stress management training and management support. We are a leader in the Health & Safety training and management support market. I have been a part of the training for the simulator and am very proud of the attention to detail that has been used for this project. The simulator in itself is amazing and the training module is built in-house. The expertise has been well received by all our partner hospitals and many other hospitals around the globe. We have been fortunate to see it being used in hospitals from the USA to Australia and we are now looking to bring this technology to our training facility. I would highly recommend Evergreen Training Solutions to any hospital seeking to implement this new training method. Peter Seaman, RACF CCS-17 Evergreen's e-learning and onsite Training Solutions has been a key part of our success as a healthcare provider. The simulator is well designed and allows us to deliver training in real time which fits into our busy schedules. Mergathen Being involved with the Safety Switch project has been a very positive and stimulating experience. Evergreen's knowledge and experience was second to none. The simulation was very realistic and the feedback provided was excellent. Derek Whitlock The simulator is fantastic and is being used across our hospital as part of a training program. The technology is exceptional and learning from the sessions have 82157476af
